

## CMSC 304 Peer Evaluation

Having completed your semester working as a group, this is a retrospective evaluation of your group's dynamics. Each group member, including yourself, is to be rated on two scales. The first is how much effort everyone put in. The second is how cooperative people were. Lastly, as your group has been "granted" \$100,000 for your complete project efforts, the compensation breakdown should be proportional to contribution. These evaluations are strictly confidential. Submit your evaluation using Piazza.
