#CIKM17
The 26th ACM International Conference on Information and Knowledge Management (CIKM 2017) takes place 6-10 November 2017, at the Pan Pacific Singapore. This year’s conference theme is “Smart Cities, Smart Nations”. Strategically positioned at the intersection of research on the management of knowledge, information, and data, CIKM is uniquely situated to highlight technologies and insights that materialize the “Smart Cities, Smart Nations” vision shared by many urban areas and their countries.

Since 1992, CIKM has successfully brought together leading researchers and practitioners from the knowledge management, information retrieval, and database communities.

Through the publication, presentation, and discussion of high-quality applied and theoretical research findings, CIKM attendees shape the future by identifying challenging problems facing the creation of advanced knowledge and information systems, and by providing insightful solution approaches for those problems. With CIKM 2017, we will continue the tradition of promoting collaboration among multiple areas through broad and interdisciplinary programs for the conference, including workshops, tutorials, industry speakers, keynote speakers, research papers and posters, demonstrations, the AnalytiCup competition, and other special events.

Opportunities

CIKM 2017 wants to partner with you and provide a unique platform for you to interact with an audience of international specialists, including:

• Wide acknowledgment of your organization leading up to and during the conference.

• Excellent networking opportunities during the conference to promote your company to a relevant audience, including graduate students and future hires.

• The opportunity to utilize the conference experience to showcase your organization’s position of support for these important research areas.

• The opportunity to source new contacts and business leads, and to maintain relationships with existing researchers, customers, suppliers and important institutions.

• Access to conference attendees who are keen to improve their knowledge within the field, and through your organization’s support, closely align your organization with attendees’ professional development on a personal level.

• The opportunity for your key staff to connect face to face with the most influential people and organizations representing this academic field, who will be gathered together in one location for a brief period of time.

• The opportunity to give a short presentation (advertising) at the CIKMConnect event on 6 November.
