“Ethical rules apply to all of us and ... achieve good results for people in general, and for situations in general... [a good set of rules] respects the fact that we are each unique and have our own values and goals, that we have judgment and will.”

Mini-Assignment

- Questions about All About Reading Journals?
  - RJ1 due Friday; RJ2 due Tuesday (don't wait until Monday!)

- Mini-Assignment
  - Grading

- Always use a reference's last name (almost)

- On self-retraining:
  - “Be sure to remember…”
  - “Just do better about…”
  - “Be careful of…”

  - “Check this list before submission”
  - “Count paragraphs…”
  - “Run a spell check every time…”

Not a “plan”
Ethics

- Consequentialism/utilitarianism (consequence based)
  - Evaluate based on *results of decisions*.

- Deontology (duty based)
  - Evaluate based on *adherence to duties or laws*.

- Contractualism (contract based)
  - Evaluate based on *promoting the world you want to live in*.

- Virtue (character based)

- Natural rights (rights based)

- Just Consequentialism (reading for Monday)
Rights-Based

- Goodness: rights-sustaining vs. rights-violating

- Negative Rights: cannot ethically be taken away
  - Voting: I can’t stop you from going to the polls.
  - But, I don’t have to drive you.

- Positive Rights: ethically must be provided
  - Positive rights are extremely rare.
  - Must be provided by who, exactly?

- Natural Rights: possessed by virtue of being human

- Legal Rights: possessed because we all agree on it
## Rights-Based

*In the US*

- Education
- Food
- Emergency health care
- Health care
- Ownership
- Privacy
- Employment

<table>

</tbody>
</table>
Virtue-Based

◆ It is ethical to be a person of good character

◆ “What should I do?”
  “What kind of person should I be?”
  ◆ Implied: what would that person do?

◆ Pros: outside of philosophy classes, we live our choices.
  ◆ Make ethical behavior and thought a habit
  ◆ Corresponds better to moral intuition

◆ Cons?
Rights (can) play into all frameworks.

<table>
<thead>
<tr>
<th>Framework</th>
<th>Pros</th>
<th>(Some) Cons</th>
</tr>
</thead>
<tbody>
<tr>
<td>Consequence-Based</td>
<td>Promotes happiness and utility</td>
<td>Justice for minority populations</td>
</tr>
<tr>
<td>Deontological/Duty-Based</td>
<td>Promotes duty and respect for individuals</td>
<td>Underestimates happiness, social utility</td>
</tr>
<tr>
<td>Contract-Based</td>
<td>Motivates morality</td>
<td>Itself only minimally moral</td>
</tr>
<tr>
<td>Character/Virtue-Based</td>
<td>Stresses moral development</td>
<td>Requires homogenous standards</td>
</tr>
</tbody>

Tavani, *Ethical Concepts and Ethical Theories*, Table 2-3
Other Topics

- Moral intuition: an *unreasoned* reaction (not *unreasonable*)
  - Our “intuitive awareness of value”
  - Intrinsically motivating
  - Retrainable; fallible; unavoidable

- Consequence vs. intent
  - What should you have foreseen?

- Temptation
  - When are you responsible for the actions of others?
  - (Answer: not never.)

- Moral discourse stoppers
Discourse Stoppers

Stopper #1
People disagree on solutions to moral issues.
1. Fails to recognize that experts in many areas disagree on key issues in their fields.
2. Fails to recognize that there are many moral issues on which people agree.
3. Fails to distinguish between disagreement about principles and disagreement about facts.

Stopper #2
Who am I to judge others?
1. Fails to distinguish between the act of judging and being a judgmental person.
2. Fails to distinguish between judging as condemning and judging as evaluating.
3. Fails to recognize that sometimes we are required to make judgments.

Stopper #3
Ethics is simply a private matter.
1. Fails to recognize that morality is essentially a public system.
2. Fails to note that personally-based morality can cause major harm to others.
3. Confuses moral choices with individual or personal preferences.

Stopper #4
Morality is simply a matter for individual cultures to decide.
1. Fails to distinguish between descriptive and normative claims about morality.
2. Assumes that people can never reach common agreement on some moral principles.
3. Assumes that a system is moral because a majority in a culture decides it is moral.

Tavani, Ethical Concepts and Ethical Theories, Table 2-2
Group Discussion

- Layoffs vs. salary freezes, round 2 (something different)

- Where do these go:
  - Education
  - Food
  - Emergency health care
  - Health care
  - Ownership
  - Privacy
  - Employment
