RDA is excited to launch our new software development center in Hunt Valley MD. We are looking for software developers who would like to expand their skills while learning from industry experts, and work on a variety of leading edge solutions (e.g. Web, Portal, Cloud, Mobile, and more) in a collaborative environment. We want candidates with a strong desire to learn, a passion for technology, and a commitment to quality.   Ideally, you will have a minimum of one year of development experience and a bachelor's degree in Computer Science, but if you are excited about software development, have a go-getter personality, and skills you can demonstrate, we would like to meet you.

Following is a list of the knowledge, attributes and technical skills we look for in our candidates:

Technical Skills

Some hands-on experience in at least 1 of the following areas:

- Microsoft .NET Development (C#, ASP.NET, ASP.NET MVC)
- Database (SQL Programming, DBA Experience)
- Web Technologies (HTML, CSS, XML, JavaScript)

Key Tasks

- Software Coding, Testing, Building, and Deployment
- Bug Tracking & Fixing
- Software Documentation

Personal Attributes

- Ability to work as part of a team
- Passion for quality
- Strong communication skills
- Desire to learn continuously and quickly
- Flexibility
- Commitment to getting the job done
- Ability to multitask

ABOUT RDA:

We are a world-class development company where personal development, growth and learning are encouraged and supported. We do this with an eye on leveraging your IT investments to achieve the maximum benefit. Our project teams are composed of the very best top 10% of U.S.-based consultants. RDA's delivery staff are recognized leaders in their areas of expertise, possessing maturity, integrity, and excellent communication skills.
